

# COMPRESSOR AND CAPACITY RANGE

## //// Mistral

Pressure: 110 - 580 psig  
Medium: Air, Nitrogen

## //// Passat

Pressure: 200 - 1150 psig  
Medium: Air, Nitrogen, Helium,  
Natural Gas, Biomethane, Hydrogen,  
Carbon Dioxide

## //// Typhoon

Pressure: 150 - 1450 psig  
Medium: Air, Nitrogen

## //// Hurricane

Pressure: 1750 - 6000 psig  
Medium: Air, Nitrogen, Helium,  
Natural Gas, Biomethane, Hydrogen

## //// Tornado

Pressure: 2000 - 6000 psig  
Medium: Air, Nitrogen, Helium,  
Natural Gas, Biomethane

## //// 5000 Series

Pressure: 1500 - 5000 psig  
Medium: Air, Nitrogen

## //// 6000 Series

Pressure: 125 - 7250 psig  
Medium: Air, Nitrogen, Helium,  
Natural Gas, Biomethane, Carbon  
Dioxide

# ABOUT SAUER COMPRESSORS

Sauer Compressors USA specializes in the manufacturing of medium and high-pressure air and gas compressors for naval, commercial maritime, offshore, research & development, and demanding industrial applications. In addition to air, Sauer Compressors is saturated in the CNG, N<sub>2</sub>, He, and inert gas markets. Sauer USA, located in Stevensville, MD is an affiliate of J.P. Sauer & Sohn, headquartered in Kiel, Germany.

Rated for continuous duty, all compressors have been field tested in the most demanding applications and extensively refined to provide true 24/7 reliability supported by the Sauer Lifetime Warranty. With a reputation for reliability and life cycle product support, Sauer Compressors is the global leader in the medium and high-pressure compressor markets.

# INDUSTRIES SERVED

Industries worldwide rely on Sauer piston compressors for pressures of up to 7,250 PSI to control process and production using high-pressure air or gas.

- Defense
- Shipping
- Compressed Natural Gas (CNG)
- Motion Compensation
- Seismic Exploration
- High Pressure Nitrogen Boosting
- Pipeline-related Services
- Power Generation
- Power Distribution
- Pressure Checking and Testing
- Processing Industry
- Research and Universities
- Metallurgy
- Mining
- Aviation
- Safety
- Custom Solutions

# AFTER SALES SUPPORT

**"Above all else, you guys answered the phone right away, you got me the parts I needed in hand at 8AM the next day. To me... in the service industry, you can't put a price on that."**

-Dave Weterveld, Operations Manager at Ozinga Energy

- 24/7 Service Support
- Emergency Response within 24hrs
- National Service Support Network
- Fully Stocked Parts Warehouse
- Parts and Labor Warranty for Service Work
- Factory Trained and Qualified Technicians
- Ability to Respond to Remote Locations
- Technical Training Courses For All Models
- Set Budget Service Agreement Programs Available
- Remote Technical Support
- Lifetime Warranty Available
