► Why Enerpac?

Our extensive product line means renting is an option for more projects than ever.

Unlike other rental options, Enerpac Rental gives you access to more of the latest technology and advanced systems, so you can get the right solution for every job. Plus, all of our equipment rented through Enerpac Rental comes with a Ready-for-Use Warranty*.

Local support is provided if needed, from rental tool selection to job completion.

Simply browse what we offer on the next page to find the tool that best fits your project. Then, submit a rental request and you'll promptly receive a quote from Enerpac Rental team.

► **New Tool Technology**

When new Enerpac tools are developed and released for sale, these tools become available within Enerpac Rental.

► **Pre-rental Inspection**

Every tool undergoes a comprehensive inspection prior to its release into Enerpac Rental by factory-trained and certified technicians.

► **Operator Training**

Enerpac Rental will train your operators on the proper use of the rental tools.

► **Local Support**

Enerpac Rental makes it a priority to answer any of your questions while the rental tools are in use.

► **Enerpac Ready-for-Use Warranty***

Rent with confidence. When you rent a product from the Enerpac Rental Network, it is guaranteed to fully operate upon first use*.

* per the Ready-for-Use Warranty (see Terms and Conditions of the Enerpac Ready-for-Use Warranty).

► Why Rent?

- ✓ You only pay when you actually need the equipment
- ✓ No capital investment needed
- ✓ Rental stores are stocked with the right equipment and attachments
- ✓ Renting provides the convenience factor of on-site delivery, which saves you money and time
- ✓ Equipment is reliable and well maintained
- ✓ Service and maintenance costs are eliminated
- ✓ Opportunity to try a product/technology before making buying decision
- ✓ Rental equipment features the latest technology
- ✓ Get exactly what you need rather than trying to "make do" with something else
- ✓ Low fleet management cost - minimum inventory needed
- ✓ No long-term storage fees are required
- ✓ No need to account for depreciation
- ✓ Eliminating the costs and time associated with trying to sell or dispose of old or unused equipment
